## **CHILD FIND SCREENING**

The Child Find Team conducts developmental screenings for children, from birth to 5, at the Child Find Center. At no cost to you, children will be screened in the areas of speech, language, fine motor, gross motor, self help skills, vision and hearing.

If you feel your child is behind in his/her development, please call for a screening appointment. At the clinic or shortly thereafter, if appropriate, you will be given suggestions as to how to help your child grow in his/her area of need. If your child demonstrates considerable areas of concern, then an evaluation might be recommended.

Abrazos, an agency serving children birth through three, will be present and available with literature and answers to your questions. You will also have an opportunity to have your young child screened by Abrazos.

If you are interested in having your child screened, please make an appointment for any of the following clinics:
