Question#1

I noticed that you recently published a 470 form for an upcoming ERATE project which included up to 163 UPS solutions/products. APC was called as the vendor, but wanted to find out if this would be an open quotation where you would accept like vendor UPS solutions, or if it needed to be an APC solution. The generalized description of what you are looking for could allow for responders to provide quotes for solution offerings that may miss the mark. What I would like to do is to connect with you to learn more about this project and tailor solutions to meet the needs of the District. This will allow you to call out exactly what is needed and make the RFP process a more manageable task since you would have a clear understanding of the specifications needed.

Answer to Question #1

Per E-rate standards any bids meeting the specifications and equal or better performance will be considered according to the evaluation criteria outlined in the RFP.

Question #2

I wanted to know if you are accepting partial bids for this application?

Answer to Question #2

RRPS will accept bids for each Proposal Item. Vendors may submit partial bids for some Proposal Items and not others.
