**Question No. 1:**

**Is the City of Rio Rancho providing conduit in the public right away for awardee fiber optic placement use?**

**Answer to Question No. 1:**

The District will provide two (2) 4-inch conduits from the MDF to the property edge to support communications infrastructure use. The use may include both fiber and copper facilities depending on requirements. Moreover, it is up to the awardee to issue and procure the required permits in accordance with all local, city, state and federal requirements; and to provide the necessary infrastructure including the fiber optics to provide the required 10Gbps service to the district under the scope of this RFP.

Thank you for your interest in Rio Rancho Public Schools.
